PROSPECTUS

TURF, FIELD, AND FARM.

BELIEVING THAT THE INTERESTS OF THE American people demand a First Class Weekly Journal devoted exclusively to the Sports of the Turf and field, and to Agricultural and Literary Pur-Turf and field, and to Agricultural and Literary Fursuits, we have made arrangements to publish such a paper. With the return of peace to our land, war and its exciting issues will no longer engross the attention and form the chief topic of discussion. The people will return with new vigor to the sports of the Field and Turf, to the breeding of fine stock, and to the developement of the resources of the country. The want of a Journal devoted to the best interests of the whole country was never so severely felt as now. To supply this want, we propose to establish

who will promptly adjust their claims with the Government.

Col. Chas. D. Pennebaker, Military Agent of Kentucky, residing at Washington City, will promptly present and realize all claims of Kentucky soldiers free of charge. He is prepared to furnish blank forms of all descriptions upon application, and will cheerfully give information as to the proper manner of making out accounts. By applying to him the soldier will save both time and money; for his office being at Washington City, he is daily in communication with the Disbursing and Auditing Departments, which enables him at once to remedy any deficiency that may arise in their claims. Local Claim Agents, of course, expect compensation for their time and labor, and the soldier, by employing a remote medium of communication with the Departments at Washington, necessarily attended with delay.

The State has also employed Local Agents at Louisville, Ky., Col. John W. Gault and Col W. De B. Morrill, who will cheerfully render information and assistance to soldiers having claims due them by the Government, free of charge.

The U. S. Sanitary Commission, which has been the content of the soldier throughout the

in a manner that will challenge the criticism of the public.

To promote the interest of the Farm will be another of our chief endeavors. The subject of agriculture is of vital interest to the American people at this particular time, recovering as they are from the effects of a long and devastating war. Neglected fields and abandoned plantations must again be made to teem with life and bloom with the fruits of the soil. None of us are so wise but that we require instruction, and by unceasing efforts we hope to make this department valuable and interesting.

No paper, to the general reader, would be complete without a Literary Department, and it is not our intention to overlook this important feature. Selections from the ablest writers of the country, and contributions from some of the most ready and scholarly pens of the day, will serve to enrich our columns.

Believing that the perpetuation of the principles

and contributions from some of the most ready and columns.

Believing that the perpetuation of the principles upon which our Government is founded depends upon the general diffusion of knowledge, we shall abor for the advancement of the cause of education.

To interest all, every paper must assign a column or more to the recording of important events transpiring in our midst, therefore we shall devote a small pace to the current news of the day.

But our aim is to establish a First Class Journal devoted to the best interests of the country—a paper that will be warmly welcomed by the gentlemen of the Turf—a Journal that will prove valuable to those who take delight in the breeding of fine stock—a paper that will be hailed as a welcome visitor by the Farmer—one that will be read with pleasure in the counting room, in the office, in the railroad car, and by the fireside. To sustain in our effort, we appeal to the patronage of the American people, and we believe that the appeal will not be in vain. No pains or expense will be spared to make the TURF, FIELD, AND FARM worthy of the most generous support.

The Publication of the American Stud Book will commence with the first number of the paper—interported Mares and their produce, and imported stallions from the earliest date to the present time with memiorials of the distinguished.

A limited space will be devoted to advertising. Our terms of subscription and rates for advertising we give the below:—

The proprietors of the Maysville Balletin have adopted this method of communicating with their distant friends, as a means by which to draw the affairs of the paper more directly to their attention. It is presumed that every Democrat to whom the Balletin has been a faithful visitant, will not only take an interest, but a pleasure in advancing its prosperity. The Democracy of Kentucky are noted for the liberal party. Every care ago, when our political prestige was greater than that of any other organization in the country, there were at least twenty plain of fashioned Democratic papers in the State, and all drawing a good usteenance from the party. Five years ago, when our political prestige was greater than that of any other organization in the country, there were at least twenty plain and all drawing a good usteenance from the party. To day, in all the ircle of our Kentucky exchanges, we are not analyte to point out a single strain forward Democratic advocate, and, except the Balletin, we are not aware that there is any such part in the State. In view of this fact, our own interest, as well as that of the party, has prompted this effort to extend the influence of the paper from one end of the State to the other. general assent. Whatever chance the party of Freedom and Progress had to gain ground in Kentucky was destroyed by the military foolery. Under pretense of promoting the policy of the General Government there was, in some parts of the State, the grossest interference at the polls by soldiers acting under instructous from General Palmer; and the consequence is an overwhelming conservative majority in both branches of the Kentucky SUGARS, COFFEES, & TEAS. "On the day of the election bodies of armed soldiers were placed before and around each vo-ting-place in the county, and there remained throughout the entire day. Early in the day, numbers of citizens, while approaching the polls in an orderly and peacable manner, for the purpose of tendering their votes, were arrested by the soldiers, and marched away, under guard, to a prison, and there held in close confinement, until next day, when they were discharged, without any charge being preferred against them. In some instances, persons, on coming in sight of the polls were met by a military officer, told that they would not be allowed to vote, and ordered to depart; and, while obeying the order, and departing from the polls, squads of soldiers were sent in pursuit, by whom they were arrested and marched through the streets to prison and confined, as stated above. At one of the voting places in the county two of the officers who had been legally appointed by the county Court to conduct the election, were, while in the discharge of their &c. &c. duties, arrested by the soldiery and carried to ORANG prison, or put upon parole to report to a Colonel in the city of Covington on the next day. It does not appear that these persons were disturbing the peace, or doing or threatening to do any illegal or unauthorized act, or that their arrest was ordered by the officers conducting the election. They were not allowed to vote, or to approach the polls, or to be heard by the judges of the election as to their right to vote. The persons so arrested all belonged to one of the two political parties whose candidates were before the people for their suffrages on that day; and the obvious purpose of the military commander, who controlled the soldiery, was to everawe and intimidate men belonging to that party so that they would
